CompressionLevel Enumeration

Specifies the compression level ranging from minimum compression to maximum compression, or no compression at all.

Members

Member	Description
Max	Maximum compression; slowest.
Min	Minimum compression; fastest.
None	Do not compress files, only store.
Normal	A compromise between speed and compression efficiency.

Remarks

Although only four values are enumerated, any integral value between «see F:\WixToolset.Dtf.Compression.CompressionLevel.Min» and «see F:\WixToolset.Dtf.Compression.CompressionLevel.Max» can also be used. `WixToolset.Dtf.Compression.dll` version
