InstallLogModes Enumeration

Log modes available for «see

M:WixToolset.Dtf.WindowsInstaller.Installer.EnableLog(WixToolset.Dtf.WindowsInstaller.InstallLogModes,System.String)» and «see M:WixToolset.Dtf.WindowsInstaller.Installer.SetExternalUI(WixToolset.Dtf.WindowsInstaller.ExternalUIHandler,WixToolset.Dtf.WindowsInstaller.InstallLogModes)» .

Members

Member	Description
ActionData	Log the data record for installation actions.
ActionStart	Log the start of installation actions.
CommonData	Log parameters for user-interface initialization.
Error	Log error messages.
ExtraDebug	Log extra debugging information.
FatalExit	Log out of memory or fatal exit information.

Member	Description
FilesInUse	List of files in use that need to be replaced.
Info	Log status messages that are not displayed.
Initialize	If this is not a quiet installation, then the basic UI has been initialized. If this is a full UI installation, the Full UI message is only sent to an external user interface and is not logged.
LogOnlyOnError	Log only on error.
None	Disable logging.
OutOfDiskSpace	Log insufficient disk space error.
Progress	Log progress bar information. This message includes information on units so far and total number of units. See <code>M:WixToolset.Dtf.WindowsInstaller.Session.Message(WixToolset.Dtf.WindowsInstaller.InstallMessage,WixToolset.Dtf.WindowsInstaller.Session.MessageFormat)</code> for an explanation of the message format. This message is only sent to an external user interface and is not logged.
PropertyDump	Log the property values at termination.
ResolveSource	Log request to determine a valid source location.
RMFilesInUse	[MSI 4.0] List of apps that the user can request Restart Manager to shut down and restart.
ShowDialog	Sent prior to display of the Full UI dialog. This message is only sent to an external user interface and is not logged.

Member	Description
Terminate	If a full UI is being used, the full UI has ended. If this is not a quiet installation, the basic UI has not yet ended. `external user interface and is not logged.
User	Log user requests.
Verbose	Sends large amounts of information to log file not generally useful to users. May be used for support.
Warning	Log warning messages.

WixToolset.Dtf.WindowsInstaller.dll version 4.0.2+644ed0118bae1aa885bb6cc906dc6c0b904de4d9
