

[WiX managed SDK](#)[WixToolset.Data.WindowsInstaller namespace](#)[ObjectField Class](#)

ObjectField Class

Field containing data for an object column in a row.

Properties

Property	Description
BaseUri	Gets the base URI of the object field.
EmbeddedFileIndex	Gets or sets the index of the embedded file in a library.
PreviousBaseUri	Gets or sets the path to the embedded cabinet of the previous file.
PreviousEmbeddedFileIndex	Gets or sets the previous index of the embedded file in the library.
UnresolvedData	Gets or sets the unresolved data for this field.
UnresolvedPreviousData	Gets or sets the unresolved previous data.

WixToolset.Data.dll version 4.0.2+644ed0118bae1aa885bb6cc906dc6c0b904de4d9

BaseUri Property

Gets the base URI of the object field.

Declaration

```
public System.Uri BaseUri { get; set; }
```

EmbeddedFileIndex Property

Gets or sets the index of the embedded file in a library.

Declaration

```
public System.Nullable<System.Int32> EmbeddedFileIndex { get; set; }
```

PreviousBaseUri Property

Gets or sets the path to the embedded cabinet of the previous file.

Declaration

```
public System.Uri PreviousBaseUri { get; set; }
```

Gets or sets the previous index of the embedded file in the library.

Declaration

```
public System.Nullable<System.Int32> PreviousEmbeddedFileIndex { get; set; }
```

UnresolvedData Property

Gets or sets the unresolved data for this field.

Declaration

```
public string UnresolvedData { get; set; }
```

UnresolvedPreviousData Property

Gets or sets the unresolved previous data.

Declaration

```
public string UnresolvedPreviousData { get; set; }
```
