Tuning Up

In our SampleCustomUI2, we stay with the same single dialog but tune it up a little bit.

```
<Dialog Id="InstallDlg" Width="370" Height="270"
Title="[ProductName] Setup" NoMinimize="yes">
```

This is only a small change: instead of specifying the button text directly, we use a property. This will make localization easier at a later stage:

```
<Control Id="Install" Type="PushButton" X="304"
Y="243" Width="56" Height="17"
Default="yes" Text="[ButtonText_Install]">
  <Publish Event="EndDialog" Value="Return" />
</Control>
```

A simple banner bitmap at the top of the dialog. Note that we use a property to refer to the binary attachment.

A horizontal line to mark the bottom of the dialog area---aesthetics, nothing else:
